

OverNighter™ 900 Series

TRADITION, INNOVATION - PERFORMANCE

Residential Use

Tubular and fabricated angle construction - provides maximum strength and holds mattress within the desired sleep cavity.

Headlock™ locking TV headrest system – prevents bed from being closed and damaged with raised headrest.

Synchronized pivotal action hinge - allows for smoother operation and eliminates sliding parts which could damage bedding. Also allows for maximum clearance of upholstered arms while opening and closing sleeper.

Nylon washers in critical rivet joints – reduce wear and ensure easy operation.

Smooth Exposed Edges – Prevent upholstery damage or consumer injury.

One-piece front leg system - Ensures a consistent seat pitch from side to side.

Positive locking leg tube - Allows the unit to be opened easily from either side of the mechanism.

Contoured “saddle seat” in seat section - provides added consumer comfort.

Dark charcoal, baked-on enamel finish - provides a more aesthetic appearance and coordinates with any fabric or leather color.

Sleeper Cavity - accommodates either innerspring or foam mattress.

Tilt Forward feature - Allows for easy cleaning under the sofa.
