

Enduroflex™ Unit

- A ready-to-use seating unit which eliminates labor-intensive manual spring-up operations.
- Available in two frame depths (27 ½" and 31") and three frame sizes (sofa - 66" , loveseat - 43" and chair - 22").
- Helps cut costs by standardizing the spring installation process.
- Angle-iron frame and metal stretchers provide greater strength, keep the wooden frame square and relieve stress on the rail.
